Reference materials are essential in the calibration of instruments and to assess a measurement method. About the IPTA® project, the DCC GmbH provides reference materials to improve the precision, accuracy and precision in the analysis.

For the performance of the UN N4 Test, the DCC GmbH offers the necessary sample container and container cover.

\*Price netto: The value added tax is not applicable for participants from the European Union outside of Germany with indication of VAT number.

The general terms and conditions of the DCC-GmbH are valid.
